<tr>
<th>Address</th>
<th>Overlapping allowed</th>
<th>Address continuity enforced</th>
<th>Address Deletion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Family Residential</td>
<td>N</td>
<td>Y</td>
<td>N</td>
</tr>
<tr>
<td>Addresses other than family residential</td>
<td>N</td>
<td>N</td>
<td>Y</td>
</tr>
</tbody>
</table>

- The above rules do not apply to DOCTOR address.
- Address priorities are no longer set by users.

- Overlapping not allowed: a relationship (FAMILY or PARENT) cannot have two or more addresses of the same type in which the start date of one address lies between the start and end date of another address of the same type.
- Address continuity: there should be no gap between addresses. The current address will be ended 31/12/2999.
1. **Expired address cannot be updated or deleted**

5. Creating new PARENT address

- When creating a new PARENT address, users will be asked if the new PARENT address will be used for FAMILY address.
• Answering No – a new PARENT address will be created. FAMILY address will not be modified. Two separate table addresses will appear; one for the PARENT and one for the FAMILY
• Answering Yes – two separate table addresses will appear; one for the PARENT and one for the FAMILY
• Users will have the option to indicate whether this new address is ‘In Area’ or not.
Changes to Enrolment Form (Full Registration)

1. Currently when clicking on RESIDENTIAL or CORRESPONDENCE box in page 4 of the enrolment form, users are asked whether they are creating a new address or fixing an address as shown in the following example:
2. In ERN 1.5.9 a new pop-up message (shown below) will replace the one shown in the example above.

3. Enrolment owning FAMILY must have a residential address. In ERN pre-1.5.9 release, the system only asks for a residential address if the ‘In Area’ value is ‘Yes’. This behaviour will be changed in ERN 1.5.9 with residential address required regardless if IN or OUT area value.
